## Event Summary

This meeting was a regular neighborhood association meeting. A board assisted in motivating the crowd to take the survey. There was a real concern that small business owners, restaurants and hotels may suffer if their frontline workers lost their transportation and how that would affect the city's economy. There was a lot of discussion of what the city would do to assist TARC.

## Participant Description

A mix of small business owners, professionals, an LMPD officer and a member of the Louisville Metro Council.
