Marketing and Communications department staff

Attendees

36

Event Summary

This meeting was a tabling event where TARC could speak directly with many Goodwill clients who rely on TARC services. Many were living in shelters and had no regular internet services so TARC brought a tablet so they could take the survey onsite. Most of these individuals were regular TARC riders and were very concerned about the cuts limiting their job opportunities and the services they need to get back on their feet.

Participant Description

Individuals in need of support to find housing, job opportunities and affordable healthcare options.
